

Lexmark Intuition S505 Adapter Replacement

This guide will inform readers how to install the adapter for the printer.

Written By: Raymond

INTRODUCTION

The adapter connects the power chord to the printer.

Step 1 — Adapter

- Locate adapter and observe that the two contacts, marked by the red rectangle, of the adapter are facing up.

Step 2

- Insert adapter into the bottom-right slot behind the printer with the adapter end facing outward.

Step 3

- Firmly push adapter in until you hear a click.

The adapter should be securely inserted into the back end of the printer and be ready for use.
